

Outsiders

When you think about playing outside, think ArtSound.

Life is too short not to lighten up your ears.
Take your favourite music outdoors with you. Come rain or shine.
There are five models in the range, each with their own
specific design and timbre.

ASW45.2

Minimum proportions, maximum waterproof protection. As the latest addition to the line, this is what the ASW45.2 represents within the waterproof products category. Designed using the newest acoustic technology, this speaker is amazingly powerful yet discreet thanks to its modest dimensions. The unique curved shape produces a clear, warm sound performance. Thanks to the indoor-outdoor switch, this speaker provides pure musical enjoyment, outdoors (terrace, garden, etc.) as well as indoors (sauna, bathroom, swimming pool).

Although you'll usually find the ASW45.2 on a terrace, it can provide background music for the entire garden, summer and winter.

The professional world has also discovered this home loudspeaker. Here it provides the guests at the outdoor café of a luxury brasserie with lots of musical pleasure.

ASW65.2

The ASW65.2 is one of the greats among the waterproof loudspeakers. It incorporates the newest acoustic technology and is amazingly powerful yet discreet. The unique curved shape produces clear, warm sound performance. Thanks to the indoor-outdoor switch, this speaker provides pure musical enjoyment, outdoors as well as indoors. In addition, the bass reflex may be hermetically sealed using the tube supplied.

The ASW65.2 is no softie though. Larger terraces, a swimming pool, ... they're all right up its street.
