

# Sonar

Sonar is an outsider in a rapidly changing world, where hip, fast and disposable products are the order of the day. With ArtSound, we have decided to swim against the tide with this series of loudspeakers. This series represents a return to the essence, to quality and durability. This is why we developed the Sonar loudspeakers from a solid wood cabinet with a conical shape.

They include woofers with rubber mounting materials. In combination with the improved drivers housed in the Sonar series, they become atypical yet high-quality speakers. Design and sound are top priority.

# AS350

The tapered cabinet design ensures a warm sound and a detailed sound reproduction. The lacquered finishing (4 layers) provides a classy look.

The AS350 has a sleek and funky design without a grill. Using the wall bracket, you can align it perfectly in any direction you choose.

**COLOURS** high gloss: white / cherry / silver / black

## TECHNICAL SPECIFICATIONS

range	<40m <sup>2</sup>
sound quality	warm
system	2-way
woofer	3.5" polypropylene cone

bass reflex	yes
magnetic shielded	yes
amp power	10 - 100W (recommended)
sensibility	80dB
impedance	8Ω
frequency range	85Hz - 20kHz
dimensions (h x w x d)	168 x 115 x 166mm
weight / piece	1.4kg
housing	MDF
colour	high gloss: white / cherry high gloss: silver / black
extra	complete with wall bracket

high-quality gilded cable connection

# ASC350

The conical design of the cabinet guarantees a warm sound with good detail rendering. Finished in high-gloss lacquer (4 coats) for a classy look. As a centre speaker, the AS-C350 forms an excellent addition to AS350 satellite loudspeakers. The double driver accentuates all mid-tones effortlessly. Together with the tweeter, it brings any film to life.

**COLOURS** high gloss white / high gloss black

high-quality gilded cable connection
