ASY LOTIS

Wall wash light

Lotis is known for its effortless design and high functionality. Asy lotis, has all the features of a normal Lotis member but has one additional benefit, asymmetry. The light shines down at an angle of 28° , which creates an attractive wash effect on the wall. Available in different sizes, colours and variants (directional or non-directional). Asy lotis completes the full range of the Lotis family and blends perfectly with the other members of the family in the same space.
